Dear Glen,

I would like to take this opportunity to commend you for the outstanding performance of your company before, during and after the extensive remodel of Magnussen Dodge Chrysler Jeep in Auburn, California. All of your personnel, from your project manager to clean-up crew, did a remarkable job. During the process last year, you not only kept us well informed, you kept us in business the entire time. In fact, during the process, we had the best year in the history of the dealership. The end result has drawn great accolades from the employees, our customers and the public at-large. You literally helped us turn a "sow's ear into a silk purse".

We look forward to our next project with you at Auburn Toyota this Spring. From the family at Magnussen Dodge Chrysler Jeep, thank you!

Best Regards,
